September 12, 2007

Dear Associates/Students & such,

With our October seminar only a month away, I wish to apprise all of you that the program has been vastly expanded and contains by now very important additions. Below, you will find its complete content.

**Intensive Post-Graduate Clinical Training
in the groundbreaking medical system:
Guided Digital Medicine™
by Savely Yurkovsky, MD,
at the Crowne Plaza
66 Hale Avenue
White Plains, NY
(914) 682-0050.**

October 12-15, 2007.

Sponsored by SY Y Integrated Health Systems, Ltd.

- 1. Integrating the vast information of all of the previous FCT seminars.**
- 2. Presentation, testing and detailed analysis of very ill and puzzling patients, in person, and otherwise, with diverse pathologies.**
- 3. Body mapping: An additional testing method designed for particularly ill patients.**
- 4. Is there a progressive potency adaptability to on the part of patients? If yes, what to do?**
- 5. Newest BRT and Rx. tips with more on diagnostic uses of Vacuum filter – uncovering positive findings behind negative readings.**
- 6. Management of a very difficult patient.**
- 7. Brief discussion concerning the physiology of the endocrine system.**
- 8. Can DNA be a universal and perfect detoxifier by and of itself?**

9. **When there is no way out: Blood autoisotope treatments. The miracles and dangers of. Its modifications: whole blood vs. serum isodes in addressing multi-toxic, infectious and autoimmune states.**
10. **Dead end street: sick white blood cells. Diagnostic and therapeutic strategy.**
11. **Life prolongation, the FCT way: FCT's single remedy for longevity.**
12. **Re-emphasizing an importance of the body's main power engine – endocrine system – in overall health and immune competence.**
 - **A new and powerful way of recharging the immune and endocrine systems: alloying homeopathic sarcodes and glandulars.**
13. **Role of skeletal muscles in low energy states.**
14. **Problem-solving algorithm: Examining the entire (patho) physiologic loop.**
15. **Knowing our strengths and weaknesses: medical models and importance of their clear understanding. What they are and aren't capable of.**
 - a) Analysis of the key difference between conceptually weak and hopeless models and minor technical weaknesses within sound and robust ones: A missing bolt in the sound model of spaceship vs. attaching wings to a refrigerator.
 - b) Conceptual collapse of pharmaceutical medicine. Dangers of zinc and other supplements.
16. **Examining the entire immune network.**
17. **To beef or not to beef: importance of animal source proteins and saturated fats in detoxification of heavy metals.**
18. **Can bones be involved in systemic ill effects ?**
19. **Testing and treating at the fundamental evolutionary level: Are we all just a bunch of evolved microbes?**
20. **Lyme disease**

Since the publication of my article: "Guided Digital Medicine™, Lyme Disease and Petri Dish Mentality", I have been treating a large number of these patients who expectedly had failed on multiple alternative and conventional treatments. Several salient points to be presented concerning this crippling illness:

 - a) Its truly epidemic nature of frightening proportions.
 - b) Its treacherous and disguising nature where it can mask itself as many other diseases.
 - c) Its phenomenal symptomatic similarity to mercury.
 - d) Its ability to harbor and release mercury in chronic cases.
 - e) Just only a few key traits that can differentiate them from one another, which are indispensable in treatment choice.
 - f) The management of Lyme disease: skills, precision, patience.
 - g) Case presentations of extremely ill Lyme patients: CFS, paralysis, seizures, ALS, MS, encephalitis.
21. **New research findings confirming FCT®'s infections-metals connection.**
22. **New research confirming FCT®'s contention concerning EMF's role in our speedy demise.**

23. **New research findings concerning microbes' ability to insert their DNA into ours!**
24. **Attention boys: Is the honeymoon indeed over? New statistics concerning the recent and rapid decline in sperm counts and in the fountain of youth – testosterone levels – in men around the world!**
Attention girls: You are on your own.
 - **Case presentations**
25. **Presentation of a more expanded and global model of health and disease. Its salient practical implications in daily practice and expanding on what progress and at what pace to expect from every patient.**
26. **Basic laws of therapy and mode of its administration: model, means, frequency, length, etc.**
27. **Students testing themselves utilizing newly learned information as time allows.**

In conclusion, this is turning out to be the best FCT[®] teaching forum ever. For those of you who've waited long enough – congratulations, the Crowne Plaza hotel is completely booked. You may make your own arrangements or contact either of the following local hotels. Upon booking, mention "FCT – Field Control Therapy" and/or the "SYI Integrated Health Systems, Ltd.", and refer the receptionist to the hotel manager. **(All rates quoted below are pending approval of the hotels' meeting managers).**

- The Rye Town Hilton in Rye Brook (5 miles from White Plains)
699 Westchester Avenue
Rye Brook, NY 10573
(914) 934-2557
www.ryetown.hilton.com. Rooms are \$149.99 per night.
- The Residence Inn Marriott
5 Barker Avenue
White Plains, NY 10601
(914) 761-7700
www.marriott.com/nycwp. Rooms are \$219 per night.

We are certain that a bed you will find, but do not miss this very special event. See you all soon,
Savely Yurkovsky, MD, President
